About the Program

Math Challenge is designed to give elementary students opportunities to sharpen their mathematical problem-solving skills. There will be 15 sets of challenges every other week starting in late September and ending in May.

Throughout the challenges, the program covers problem solving strategies such as draw a picture or model, make an organized list, look for a pattern, working backward, and guess and check.

The program is **completely free** and no-sign up is necessary. All students **K to Grade 5** are invited to participate.

How to Participate

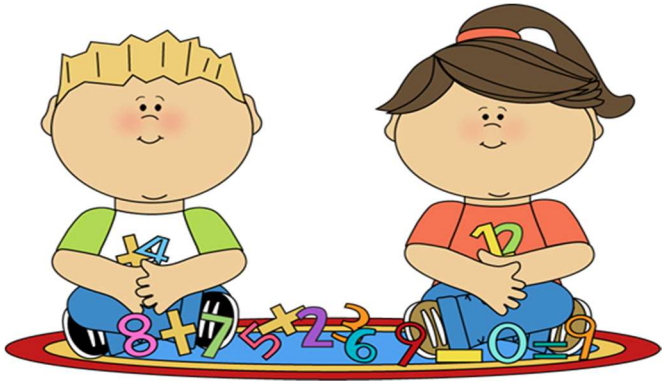
1) Go to our school Math Challenge page at http://www.mathinaction.org/albert-einstein-elementary.html and print out the current Math Challenge.
2) Solve as many problems as you like but remember to solve the minimum number required for each grade. Students are encouraged to complete extra problems above their grade level requirement.
3) Submit your solutions by the due date to your teacher.

- *1st math challenge will be available online on September 21st (Friday).*
- *Due date is September 27th (Thursday) (no later than 3 p.m.).*

MATH CHALLENGE

A new Math Enrichment Program at Albert Einstein Elementary School sponsored by the PTSA!

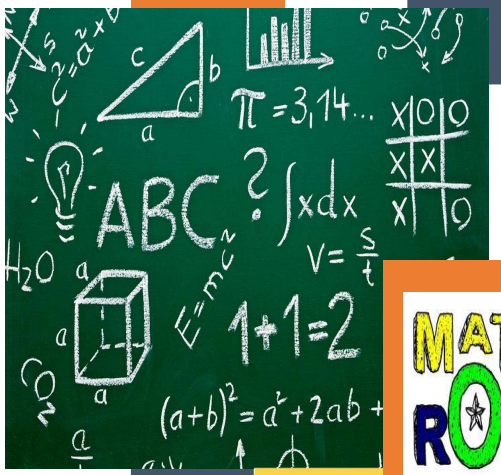
This is a great opportunity for families to be involved and enjoy math through fun and engaging math problems. We encourage parents and siblings to get involved in discussing and solving them. Schedule and problem-solving strategies are available at www.mathinaction.org.



Recognition:

One (1) winner in each grade will be randomly selected from qualified submissions. Check for your name in the Ottermail!

Students who complete 12 or more Challenges will be awarded a certificate in their class and recognized at the year-end ceremony in June 2019.



"The only way to learn mathematics is to do mathematics." -Paul Halmos
