

# It's Aves Library Night

This night is definitely "for the birds."

Monday, May 22<sup>nd</sup> at 6:00pm

Our guest for the evening is Jim Anderson, former Rosa Park librarian and avid *birdologist*\*, both entertaining and informative.

Come join Mr. Anderson for an evening of bird activities.

Have you seen the tundra swans on Fir Island? How about the sand hill cranes circling at the Pot Holes Reservoir? Birding is a lifelong adventure. We live in a world class environment for birding. Once you start you'll never stop. Welcome to a lifetime filled with discovery and wonder.

Learn about birding!

Let's go!

\*A *birdologist* is anyone who appreciates birds, anyone whose soul is strengthened by watching them.
